Dhaka, Bangladesh

CAREER OBJECTIVE

Prospective PhD researcher with a strong background in cyber-physical systems, AI security, and cloud-based infrastructure, seeking doctoral training in the safety and resilience of AI-driven critical infrastructure. My research interests focus on trustworthy and robust AI for cyber-physical systems, including digital twin-based validation, anomaly detection, and secure deployment of intelligent systems in dynamic, safety-critical environments. I am particularly motivated by developing methods for real-time assurance, resilience, and regulatory-aligned AI systems for applications such as smart grids and intelligent infrastructure.

EDUCATION

- North South University *Graduated: Summer 2020*
Dhaka, Bangladesh
Master of Science in Computer Science and Engineering (MSc)
 - CGPA: 3.97 / 4.00 (approx. 99 / 100; first-class standing)
 - Thesis: *"A Practical Framework for Storing and Searching Encrypted Data on Cloud Storage"* — focused on cloud security, privacy-preserving storage, and efficient search over encrypted data.

- North South University *Graduated: Summer 2018*
Dhaka, Bangladesh
Bachelor of Science in Computer Science and Engineering (BSc)
 - CGPA: 3.24 / 4.00 (approx. 81 / 100)

ACADEMIC EXPERIENCE

- Institute for Advanced Research (IAR) Lab *January, 2024 - Present*
Research Assistant United International University & North South University
 - Developed and deployed a blockchain-based health insurance system using smart contracts and cryptographic techniques to preserve patient privacy and detect fraud, resulting in a peer-reviewed publication in a reputable journal.
 - Leading research on machine learning-based fault detection and anomaly identification in healthcare systems using real-world building data, with a focus on reliable and secure operation of critical infrastructure.

- Cyber Physical System with Phasor Measurement Unit (CPS-PMU) Research Lab *February, 2022 – April, 2024*
Graduate Research Assistant North South University
 - Developed and tested a cyber-physical system (CPS) testbed using Node-RED for simulating smart grid environments with integrated data and power network flows to study security and reliability.
 - Utilized GridPACK, NS-3, and HELICS to model and synchronize communication and control layers on Linux-based simulations, enabling experiments on power grid resilience and cybersecurity.

- Department of Electrical & Computer Engineering (ECE) *July, 2023 – June, 2024*
Graduate Teaching Assistant North South University
 - Conducted supplemental instruction and review sessions for CSE411, CSE422, and CSE482, helping students strengthen their understanding of advanced database systems, simulation, and web technologies.
 - Supported faculty with grading, course logistics, and student consultations, ensuring effective delivery of course content and academic support.

SKILLS

- **Machine Learning and Data-Driven Modeling:** Applied ML for anomaly and threat detection, fault diagnostics, defect prediction, and security analytics in cybersecurity, healthcare, and cyber-physical systems; model design, feature engineering, and evaluation in Python.
- **Security and Threat Analysis:** Vulnerability assessment, penetration testing, intrusion detection systems (IDS), SIEM, network traffic analysis, DNS over HTTPS (DoH) threat detection.
- **Cryptography and Privacy:** AES, RSA, PKI, homomorphic encryption, blockchain-based protocols, privacy-preserving storage and search over encrypted data, federated learning for sensitive data.
- **Programming and Research Tools:** Python, Bash, Git, LaTeX; Linux-based experimentation and simulation pipelines.
- **Cloud Platforms and Infrastructure:** Oracle Cloud Infrastructure (OCI), AWS, Azure; infrastructure automation with Terraform, Docker, and Kubernetes.
- **Operating Systems and Virtualization:** Linux (Ubuntu, CentOS, Red Hat), KVM, Hyper-V.
- **Tools and Simulators:** Wireshark, Metasploit, NS3, Burp Suite, Nmap; GridPACK and HELICS for CPS and power grid studies.

PROFESSIONAL EXPERIENCE

- Bangladesh Data Center Company Limited (BDCL) [🌐]
Assistant Manager (Cloud)
 - Provision and manage Oracle Cloud Infrastructure (OCI) resources—including compute instances, storage, and databases—tailored to client requirements under Infrastructure as a Code (IaaS) model.
 - Deliver ongoing cloud support by troubleshooting and resolving client issues to ensure seamless service delivery and adherence to SLAs.April, 2024 - Present
Dhaka, Bangladesh

- Ethics Advanced Technology Limited (EATL) [🌐]
Cyber Security Instructor
 - Conducted hands-on cybersecurity training sessions for 50+ IT professionals from leading banks, using EC-Council's ICBT: Cybersecurity Essentials iLabs to enhance practical threat detection and mitigation skills.
 - Designed and managed interactive lab exercises, providing individual guidance to reinforce core concepts in network security, ethical hacking, and incident response.September, 2023 – November, 2023
Dhaka, Bangladesh

- One World Infotech Limited [🌐]
Solution Engineer
 - Supported enterprise clients in deploying multi-factor authentication (OneSpan) and conducting advanced threat and vulnerability assessments to strengthen cybersecurity posture.
 - Collaborated on incident response readiness, SOC transformation, and penetration testing initiatives, aligning technical solutions with organizational security frameworks and compliance needs.December, 2020 - May 2021
Gulshan-1, Dhaka, Bangladesh

HONORS AND AWARDS

- Vice-Chancellor's Gold Medal, 25th Convocation
*North South University, Bangladesh*December 2024
- Reviewer, International Conference on Data, Computation, and Communication (ICDCC-2024)
*VIT Bhopal University, India*November 2024
- Reviewer, International Conference on Innovations in Data Science (ICIDS-2024)
*Manipal University Jaipur, India*November 2024
- Huawei ICT Competition 2023–2024 (Network Track)
Huawei ICT Academy — Bangladesh, Indonesia, China
Placed 3rd in the National Round (Bangladesh).
Attended the Asia-Pacific award ceremony in Jakarta, Indonesia.
*Secured 2nd place as part of a 3-member team in the Global Final (Shenzhen, China).*Jan–May 2024

CERTIFICATIONS

- AWS Certified Practitioner (CLF-C02) [AWS]June, 2025
- AWS Certified AI Practitioner (AIF-C01) [AWS]June, 2025
- Certified Ethical Hacker (Master) [EC-Council]January, 2025
- Certified Ethical Hacker (ANSI) [EC-Council]January, 2025
- Certified Ethical Hacker (Practical) [EC-Council]December, 2024
- Oracle Cloud Infrastructure 2024 Certified AI Foundations Associate [Oracle Cloud]August, 2024
- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional [Oracle Cloud]July, 2024
